NEWPORT,

BY CRANSTON & NORMAN. 127 THAMES STREET.

FRIDAY MORNING, OCT. 17, 1851.

IPWe have recieved from Thomas Durfee, Esq., the 3d number of the first volume of Rhode Island Reports of the decisions of our Supreme Court. We are very glad that the decisions of this Court are at last to be regularly und punctually reported, because it is very important to the profession, and the public, that these decisions should be in a ringible form, as a matter of reference. Mr. Durfee, the Reporter, is a son of the late Chief Instice Durice, and is a gentleman who is admirably qualifirst both by education and talent, for this important and responsible duty.-The salary of the Reporter is merely nomical, and affords no kind of recom pease for the great labor which is required to perfect the Reports. We trust that the General Assembly will at once increase the salary to such a reasonable sum as will enable Mr. Durfee to devote even more time, in future, to the work . lary should be such that the Reper can travel through the Circuit, and hear the cares argued, in each Canty,-he would then be enabled to the much more interesting and valusee Reports than if he had to rely en rely upon the mero records of the serie, and the opinions which are ...led him by the Judges. Until this inic. Rhode Island cannot expect to taive the decisions of her Supreme to at reported in a manner which she will be proud of, because no competent havyer can afford to hold the office for a way long time.

The volume before us contains imporunt decisions in a large number of ca s. up to March, 1851. The typographcoal execution is very neat, and quite · qual to the Reports of any other State The book may be had of G. H. Whit ney, the publisher, Providence. The present number completes the first volume, and contains a full index and Table of Cases to the entire volume.

37 The steamship America arrived at Halifax Wednesday, but she brings nothing of special importance.

THE NEW JUDGE OF THE SUPREMI The Ontober term of this wort. Judge Curtis on the Bench, was paned at twenty minutes past tan o'clock this morning, with prayer by Rev. E Peabody. The clerk read the commission from the President, appointing Benjamin R. Curtis an Associate Justice of the first Circuit Court of the United States--after which the usual proclamations were made, and the Grand Jury empane'led-Henry Colt being appointed foreman.

The Hon. George Lunt, after a few remarks of culogy upon the Late Judge Woodbury, presented the resolutions passed at the late meeting of the Bar .-Both Judge Sprague and Judge Curtis responded by a few remarks as to the ability, experience and general sagacity of the decensed, and in conclusion read ily assented to a motion to adjourn from respect to his memory.-Boston Travel-

SAD STORY OF A LENATIC CAPTAIN. The fifth report of the Inspector of Lunatics in Ireland, states that one man confined at Dundrum Asylum, Capt, S. on his return from the West Indies, murdered seven of his own crew at sea. On leaving Barbadoes he labored under depression and in a day or two accused his mate of exciting the sailors to mutimy. During the night he scarcely ever took rest, and for the last two nights lay a resa, with two loaded pistols and attass by his side, apprehensive of begastacked. When in sight of the Cork coast, he threatened on arriving in , it to prosecute the whole crew. The peremonstrated, when Capt. S. reand, "Show your obedience by allowrigina to bind you down on deck."-1...e man consented. He then called on second mate, pointed out what he are i done, and desired him to follow the example. He did so; in fact sever or eight individuals permitted themselves to be fastened to the deck with ropes .-When thus incapable of the defence, he deliberately murdered them in various ways; the eighth escaped into the hold. and was wounded there by a pistol shot At the moment a pilot, boat can alongride, Capt. S. jumped overboard, was saved, and brought into Cork harbor with his vessel. He is now a religious monomaniac, generally very tranquil and rational, subject, however, at interalis, to maniacal paroxyems, the fore caner of which is an excess of piety with a recurrence to the phraseology of Lis former profession. He is still im ressed with the beltef that the crew meditated mutiny and his death.

Only fifty-three millions of florius had been substribed to the Austrian loan up to the 21th of September, and only three days remained in which subscriptions could be received.

The extreme excitement relative to Cuba had greatly diminished at Madrid. The execution of Lopez and his companions appears to have satisfied them.

The Smyrna Impartial, of the 20th of September, announces the arrival that day in the port of Smyrna, of the U.S. steam frigate Mississippi, Capt. Long, from Constantinople. The Hungarian refugees, including. Kossuth were on board. They were on their way to America. Later accounts mention the arrival of the Mississippi at Spezzia.

The Corriere Mercantile quotes letters from Spezzia, of the 22d, stating that the inhabitants of that town, on being informed that Kossuth was on board the Mississippi, made great demonstrations in honor of his arrival. The town was illuminated, rockets were let off, and a large number of boats, gaily decked out, surrounded the Misslesippi, caluting Kossuth with music and cheers .-The American Commodore, who is taking the waters at Lucca, has been to La Spezzia to compliment him.

The Marseilles journals announce the arrival, on the 20th, in that port, of the Miesissippi, having on board sixty Hungarian telugees, and amongst them Kossuth. The steamer only put in for coal, and was to depart immediately for England. No person discrebarked from her, but several of the nierchants went

The liberation of Kossuth and his companions has led to somewhat superfluous ceremony at Pesth. On the 9th of January, 1850, thirty-six Hungarian revolutionary leaders were summoned before the court-martial then sitting in in the captual of the province. On the 22d instant they were all condemned in contumacium and hanged in effigy; that is, a black board, with the thirtysix names inscribed thereon in white letters, was affixed to the gallows. It is expected that about 160 sentences of persons whose suits have been going on, although they have been left at liberty, will be published on the 29th.

The Augeburg Gazette brings advices relative to Kossuth, which are evidently incorrect. The last positive news, that the Mississippi with 55 exilea on board, had touched at Smyrna, and on the 16th at Syra, one of the Cyclades. On the arrival of Kosmith in the Dardanelles, the captain of the Mississippi went on board the Turkish vesrel and placed his ship at the disposal of the exiles, at the same time presenting \$16,000 to their leader in the name of the American government. After having solemnly promised the Turkish Commissaries to go direct to America, Kossuth wanted to take a Hungarian flag with him, into the American vessel, but this was objected to by the Turks. When all the refugees were safely on board, Kossuth made a speech in which Mississippi started on her voyage.

Turkey has been on the point of a po-Etical erisis. Rechid Pacha's power was tottering, and his successors were already talked of. It was said that the son of one of them had been chosen for the husband of the Sultan's daughter, a princess of eleven years of age, but the young man, who was said to be full of talent, was found poisoned one morning, and the Sultan's daughter was affianced to Ruchid Pacha's son, a child of ten years of age, who in spite of his extreme youth, has been named Vizier.

The Cape Town mail of August 23d. mnounces a Government natice from the British authorities in Orange River rovereignty, denouncing the people of Moseth and Montsane asenemies. The whole force of the districts within the sovereignty have been summoned, includag all male inhabitants liable to do military duty.

It is estimated that martial law is about to be proclaimed by Her Majesty's High Commission in that Province,

Sir Harry Smith had despatched two companies of the 45th regiment and 500 Zulas to aid the sovereignty. Sir Har ry designs to proceed there himself.

The Mail condemns the proceedings of the President, and asserts that its views are sustained by the colonists universally.

Advices from Grahamstown to August 16th, have been received, which state that since the last post, the work of destruction is still going on around that place. Murders and robberies by Kuters continue at Somerset, and great distress prevails on occount of a severe drought, as well as Kafir depredations. Caule, sheep and horses are perishing

for the want of food; hottile Kafires are numerous in the neighborhood. At Cradoch, security seems to pre-

vail in respect to war but much sickness is felt. At Whittlesea encounters with bands

of Kraals had been successful. A dreadful hurricane had swent over the missionary station of Ulmaslower

materially damaging the Wesleyan chape, &c. Letters from the Kreilis country state that the Governor has made up his mind for peace and had made a former offer to his Excellency to indemnify him for

all losses sustained by traders since the war began. Intelligence from Fort Hare announces that the Kafirs and Hottentots are in such force near the general's tent, that he can do nothing with them.

The frontier posts are greatly distressed for supplies.

At Alice, meal was selling from £5 to £6 10s per 100 lbs. The inhabitants were daily looking for fresh inroads of the savages.

At Somerset, August 16th, the post was attacked and themen were allowed to escape, but everything valuable was plundered.

The town has been thrown into great agitation by discovering that nearly all the confidential servants of Gan Somerest as Ondands had decamped, carrying emen mach property.

Intercepted letters of the Mexican commander say that should the insurgent leader be taken, he will be served in the same way as the Spaniards serv ed Lapez.

Governor Leicher arrived at Vera Cruz on the 1st of October, and immediately proceeded to the capital .-Accounts from the city of Mexico to the 7th of September, represent the Goverament to be in great confusion, the treasury being at the lowest jebb, and the government resources almost annihilated.
